

Easter 2020

Activity: Easter Card.

Print or copy page 2 of this document. When coloured in and folded it will be a colourful Easter Card.

Write a message inside and give it to someone to brighten their home.

The tradition of sending Easter postcards to relatives and friends developed during the end of the 19th century. Although only a few were sent in 1898, the cards subsequently became popular worldwide. More recently the sending of Easter cards has declined as people use email, texts and e-cards to say hello to friends and family at Easter.

Our card carries the Christian Easter Message. The coming back from the dead of Jesus that first Easter Morning brought certainty to the promise of eternal life.

Have a peaceful and blessed Easter despite the restrictions that the Coronavirus is imposing on our lives.

With our prayers

The ministry team and all involved in children, young peoples and families at All Saints.
